

# I *my school because...*

The teachers and students are different from regular high school. Nobody will judge you, nobody will bully you. It feels like a safe place. It's like you're not the only one going through a hard time or struggling. RMA has the most caring teachers, they help you with everything. They do so much for the students at RMA, help you with your work, try to help you get transportation, get a good meal. They help as much as they can in any way possible. I feel like this school was meant for me.

# I ♥ my school because...

I love my school because of the kind and caring teachers. Although it is my first year here, I can feel with the teachers. Everyone is welcoming and the principal tries to interact with the students. I said this because at my old school the principal wasn't even seen half of the time. But at RMA the principal tries to create and bond and ~~also~~ get feedback from the students.

The teachers make sure our work ~~and~~ is done and they walk around the class (All of my teachers) and ask us if we understand the work. The difference between regular district teachers, and RMA teachers. When I came to RMA my history grades, math and science got 100% better and I am so happy for that. I used to fail horribly in history last year but ever since went to RMA my history grade NEVER dropped below an A. I am very thankful for RMA's caring and great teachers and staff!

# I ♥ my school because...

The RMA teachers and staff genuinely care about the students. Taking time to make sure each individual student is on the same track. The staff takes their time to actually include our input on ways to better our school. Although the size of our school may be small, everyone in it has a big heart.

I love my school for various reasons. First, all the teachers are very nice & caring. They really do care about our education & our future. I also love the atmosphere I get everytime I walk in into campus. Everybody always in a good mood. There's always someone greeting me everyday when I show up. Everybody is so helpful in here. Every teacher that I've had has shown me that they want to see me graduate & they want to see me succeed in the future. These are the only teachers that are more than teachers in my eyes.

# I my school because...

My teachers know me and feel that I can easily communicate with them. I also feel that I can make a difference on my campus. I love my school because I feel like they will do anything and everything to help students succeed. I can always go to my teachers and staff looking out for me is MARVELOUS! One more thing that I love about my school is the opportunities that they offer and that my school is incredibly unique!

# I my school because...

I love my school because of the fun little events we have now. When I was here earlier years, it wasn't as interesting. It seemed dead and boring. But now it's better than before, we have events for holidays, and sometimes field trips to places. So, I find my school to be better, way better than the last past years.

I  **my school because...**

RMA is one of the best school's out there. I love all the staff because they are all so helpful and nice. They are the type of teachers that actually care about you and your grades. They are the type of teachers we need in all schools, and I respect them very much. Also all of us students here are actually here to learn and not fool around. All the bunch of us are here to get a good education and this is the best school to get it at. 😊❤️

# I ♥ my school because...

I enjoy being at RMA because of the flexible schedule we have half days. and also because it's helping me with my missing credits and I'll be able to graduate.

The teacher's are also nice and help you out on anything you need being help with.

# I ♥ my school because...

My school gives me the opportunity to make up my lost credits. When I came to RMA I wanted to get a job, my school allows me to have a job and still make it to school in time. My school also gives me enough time to make up my online classes. This school is very close to home, and that helps me a lot because I would be late to my old school all the time because it was so far. I just want to thank R.M.A for giving me the chance to not just catch up in
